Summary

Deep Understanding of Mathematics, Data structures and Algorithms.

Last for 5+ years of development experience on projects ranging from small size applications through complex enterprise. I am a good experienced developer with Laravel and Node.js/Express as Backend, and React, Vue with JS as Frontend, MySQL, Postgres, MongoDB as Backend.

Furthermore with profiling skills I have sometimes performed various roles as developer and small team lead.

WORK EXPERIENCE

Intellectsoft - Senior Frontend Developer

February 2021 - December 2022

New York

- Built Front End architecture and init project from scratch.
- Making reusable high performance component and pages.
- Worked with Quality Assurance to get new pages/products using Prettier, ESLint and etc, and addressed any issues within short times.
- Optimization React projects in the team using several methods including Function/Stateless Components, React.PureComponent, Immutable Data Structures, Dependency optimization and etc.

Azoft - Web Developer

August 2018 - November 2020

New York

- Participated in the initial wave of developers learning and implementing the React.JS library.
- Optimized SQL queries for the heavy-load parts of the system, which improved website responsiveness and reduced the database costs by 20%.
- Developed and maintained 10+ websites, using Node.js and SQL Server.
- Rewrote HTML to meet industry and company standards for SEO and Accessibility.

Sync Software - Junior Frontend Developer

January 2018 - June 2018

Vancouver

- Worked as a productive and positive team member to design, code, test, report, and debug.
- Delivered all appointed projects on time.
- Wrote SQL statements and stored procedures.
- Worked well independently and within a team setting.
